

IFTToMM and Ethics

JOIN THE WEBINAR

5 OCT. 2023 - 3:00 PM CET

In the last two decades, we've gained more knowledge than in all of human history. Mechanical engineers used to focus on just a few aspects of a machine, but now we must think about its environmental impact, interconnectedness, and intelligence. Our goal has always been to improve the world, but we must also consider the ethical implications of our work. With exponential growth, we need to anticipate and adapt to the ever-changing world, and even IFTToMM must face this reality.

To initiate a reflection and a dialogue on ethics

To promote methods and practices within the IFTToMM community

PROGRAMME

3:00 PM Prof. Teun Koetsier

3:30 PM Open debate

SPEAKER

Teun Koetsier

historian and philosopher of mathematics with a specific interest in the history of machines

CDG 1: Securing our Future Environment
Air, Water, Energy
